

Rottweil®

CARTRIDGE PIONEER SINCE 1906

THE ROTTWEIL LINE

Rottweil offers a large assortment of shotshells for both game and range. To cater to the broad range of cartridge applications, Rottweil has introduced various product lines to help you find exactly the load that suits both you and your special purpose.

WAIDMANNSSHEIL LINE

Product groups:

WAIDMANNSSHEIL MAGNUM, SEMI MAGNUM, HV PLASTIK, PAPPE, TUNGSTEN, STEEL & SOFT COPPER, BISMUTH, MAGNUM STEEL, STEEL HV

The **ROTTWEIL WAIDMANNSSHEIL LINE** represents uncompromising premium quality. From carefully tested components to high-end design, everything is crafted for discerning hunters.

GAME EDITION

Product groups:

GAME EDITION DUCK, HARE, PIGEON, PHEASANT, CROW, GOOSE, PARTRIDGE, WOODCOOK, DEER, HUNT, STEEL HUNT GREEN

For specialized applications, the **ROTTWEIL GAME EDITION** offers perfectly calibrated cartridges for small game species. With optimized energy distribution and rigorous testing, these cartridges deliver precise results and maximum safety, even in challenging conditions or over long distances.

CLASSIC LINE

Product groups:

SPECIAL, SPECIAL FIBER, SPECIAL STEEL

The **ROTTWEIL CLASSIC LINE** is the ideal choice for high-volume hunters. It combines proven quality with excellent value for money through the use of efficient standard components.

EXTRA LINE

Product groups:

EXACT, EXPRESS, BRENNKE

For specific requirements, the **ROTTWEIL EXTRA LINE** provides top-tier cartridges, such as slug rounds for wild boar hunting or buckshot cartridges for specialized uses.

COMPETITION LINE

Product groups:

GOLD HV, SELECTION, FIBER, SPECIAL, SPECIAL STEEL, SPECIAL STEEL GREEN

Finally, the **ROTTWEIL COMPETITION LINE** is designed for sports shooters, offering a wide range of products for disciplines like Trap, Skeet, and Sporting Clays.

Rottweil®

WAIDMANNNSHEIL LINE

ROTTWEIL WAIDMANNNSHEIL

Our commitment to high quality is our driving force.

Right from the selection of suitable components for our premium shotgun cartridges, we proceed with great care. Only thoroughly tested and carefully selected cases, wads, and powders are used. We also take a unique approach to the look of our high-end line: finest, smudge-proof printing on the cases, high-quality packaging, and shiny, premium-grade brass heads reflect our premium standards. However, the most important criterion for demanding hunters is the consistently high quality when hunting with our shotgun cartridges. That's why ROTTWEIL WAIDMANNNSHEIL products offer excellent shot patterns at all hunting distances with various choke constrictions, reliable ignition and loading capability, as well as effective lethality. This high standard of quality remains our driving force in the production and continuous development of our Rottweil shotgun cartridges.

ROTTWEIL WAIDMANNSSHEIL
MAGNUM

Exceptionally powerful for increased coverage

With the maximum possible shot load, this cartridge is designed to meet the highest demands of small game hunting. The magnum cartridge may only be used in shotguns with 76 mm (3”) chambers.

- Cal. 12: Black synthetic case with a 25 mm brass head
- Cal. 20: Yellow synthetic case with a 16 mm brass head
- Shot cup wad
- Lead shot

ROTTWEIL WAIDMANNSSHEIL
SEMI MAGNUM

Increased coverage for standard shotguns

To provide hunters using standard-proofed shotguns with a 70 mm chamber length a higher shot load, this semi-magnum load has been specially developed. Its internal ballistics are precisely tailored to these requirements.

- Cal. 12: Black synthetic case with a 25 mm brass head
- Shot cup wad
- Lead shot
- Heavy load

Item No.		Caliber	Wadmaterial	Shot Nr.	Shot Size in mm	Load in gramm	V _{2,5} (m/s)	Packaging

ROTTWEIL WAIDMANNSSHEIL
HV PLASTIK

Masterfully crafted for fast hits

The premium plastic version of the legendary Waidmannsheil cardboard cartridge is another success in the Rottweil shotgun cartridge range. Its exceptionally high velocity, combined with a heavy shot load guided by the shot cup wad, delivers outstanding performance – even at the outer limits of effective shotgun range – while maintaining excellent shot patterns.

- Cal. 12: Black synthetic case with a 25 mm brass head
- Cal. 16: Black synthetic case with a 16 mm brass head
- Cal. 20: Yellow synthetic case with a 16 mm high brass head
- Shot cup wad
- Lead shot
- High velocity (HV)

ROTTWEIL WAIDMANNSSHEIL
PAPPE

Masterful perfection for the most demanding shooter

The Rottweil WAISMANNSHEIL cardboard cartridges are the perfect choice for demanding hunters who expect top performance and unmatched quality. Thanks to their cardboard cases, combined with a fiber wad and a biodegradable H-disc, they offer an environmentally friendly alternative to plastic cases – without compromising efficiency. The extra-hard shot with a high share of antimony ensures an ideal balance of hardness and density, providing consistent patterning and maximum penetration at any distance.

- Cal. 12: Black synthetic case with a 25 mm brass head
- Wad and cup made from biodegradable / compostable materials
- Lead shot

Item No.		Caliber	Wadmaterial	Shot Nr.	Shot Size in mm	Load in gramm	V _{2,5} (m/s)	Packaging

ROTTWEIL WAIDMANNSSHEIL
TUNGSTEN

Lead-free and highly effective at extreme distances

ROTTWEIL WAIDMANNSSHEIL TUNGSTEN shotgun shells are loaded with SPHERO TUNGSTEN (TM), boasting a density of 15.2 g/cm³. This exceptional density allows the pellets to retain energy over long distances, while their hardness ensures they maintain their shape under acceleration, resulting in higher muzzle velocity. Thanks to its outstanding long-range ballistics, ROTTWEIL WAIDMANNSSHEIL TUNGSTEN remains highly effective even at extreme distances – delivering lethal performance on game at 55 to 60 meters and beyond.

- Cal. 12: Green synthetic case with a 25 mm nickel-plated brass head
- Special cup wad
- Environmentally friendly & ideal for waterfowl hunting

Only for shotguns carrying steel proof marks

Item No.		Caliber	Wadmaterial	Shot Nr.	Shot Size in mm	Load in gramm	V _{2,5} (m/s)	Packaging

ROTTWEIL WAIDMANNSSHEIL
STEEL & SOFT COPPER

Lead-free performance with a dual-material design

ROTTWEIL WAIDMANNSSHEIL STEEL & SOFT COPPER cartridges feature a unique combination of thermo treated soft copper and steel pellets in varying shot sizes. This innovative design was developed to deliver powerful, dense shot patterns, making it highly effective for long-range waterfowl hunting.

- Cal. 12: Green synthetic case with a 25 mm nickel-plated brass head
- Cal. 20: Yellow synthetic case with a 16 mm nickel-plated brass head
- Special cup wad
- Environmentally friendly & ideal for waterfowl hunting

ROTTWEIL WAIDMANNSSHEIL BISMUTH

Superior performance for versatile hunting

The Rottweil WAIDMANNSSHEIL BISMUTH cartridges feature a material density approximately 22% higher than steel shot, resulting in increased lethality at greater distances. The special fiber wad, combined with an H-disc, ensures particularly uniform and wide shot patterns, improving hit rates. These cartridges are suitable for shotguns without steel shot proofing and can be used regardless of choke constriction, enhancing their versatility. With a maximum muzzle velocity (V2.5 m) of up to 390 m/s, Rottweil WAIDMANNSSHEIL BISMUTH cartridges provide maximum energy transfer, extended shooting ranges, and a reduced lead factor on moving targets.

1) Superior Material Properties:

The shot in WAIDMANNSSHEIL BISMUTH cartridges is made of pure bismuth with a density of 9.78 g/cm³, making it 22% denser than soft iron. At the same time, it is significantly softer and more deformable.

2) Increased Hit Probability:

Due to bismuth’s higher density, a larger shot size can be used compared to lead shot while maintaining the same shot load. This results in more pellets per cup and an improved hit rate.

3) Versatile Hunting:

WAIDMANNSSHEIL BISMUTH allows unrestricted lead-free hunting of all types of small game, whether near water, in the forest, or in open fields.

ROTTWEIL WAIDMANNSSHEIL MAGNUM STEEL

Powerful coverage for environmentally sensitive areas

WAIDMANNSSHEIL MAGNUM STEEL shotgun cartridges, made from high-quality soft iron, provide a powerful option for hunters who prioritize maximum penetration and precision. With their robust construction and increased projectile energy, these cartridges are ideal for challenging hunting situations, delivering reliable performance across various environments.

- Cal. 12: Green synthetic case with a 25 mm nickel-plated brass head
- Cal. 20: Yellow synthetic case with a 16 mm nickel-plated brass head
- Special cup wad
- Steel shot
- Environmentally friendly & ideal for waterfowl hunting

ROTTWEIL WAIDMANNSSHEIL STEEL HV

The rapid steel shot cartridge

The WAIDMANNSSHEIL STEEL HV (HV = High Velocity) shotgun cartridges deliver outstanding performance for hunters by combining precision and reliability. Featuring lead-free, C.I.P.-compliant steel shot, these cartridges are particularly suited for environmentally sensitive areas.

- Cal. 12: Green synthetic case with a 25 mm high, nickel-plated brass head
- Cal. 20: Yellow synthetic case with a 16 mm high, nickel-plated brass head
- Special cup wad
- Steel shot
- High velocity (HV) for exceptional speed
- Environmentally friendly & ideal for waterfowl hunting

Only for shotguns carrying steel proof marks

Rottweil®

GAME EDITION

ROTTWEIL GAME EDITION

Developed for game-specific applications

The components and performances of each cartridge are tailored to produce an optimal distribution of impact energy – and thereby a killing effect – against specific game species. The fine-tuning of each load is achieved through rigorous quality testing combined with a unique measurement and analysis protocol. Light game species need less pattern energy – the combination of energy delivery and pattern coverage – while heavier species need more. In addition to its weight, the surface area of the game is another decisive variable. Within the usual range of shooting distances for certain species of small game, GAME EDITION cartridges deliver far more pattern energy than is necessary for a huntsmanlike kill. This gives the small game hunter the confidence of knowing that he has a reserve of energy if he needs it: if the pattern isn't quite centred on the animal, if ground game is in full run or the birds are flying fast, or if the shooting distance lies at the cartridge's maximum effective range. This is why GAME EDITION cartridges guarantee the best possible success in small game hunting.

GAME EDITION DUCK

- Cal. 12: dark green synthetic case with 16 mm brass head
- Cal. 16: dark green synthetic case with 16 mm brass head
- Cal. 20: yellow synthetic case with 16 mm brass head
- Steel shot
- Environmentally friendly / suitable for waterfowl
- Optimised for a shooting distance of 12 - 25 m

- All-round cartridge for hunting
- Felt wad for better shot pattern

Item No.		Caliber	Wadmaterial	Shot Nr.	Shot Size in mm	Load in gramm	V _{2,5} (m/s)	Packaging
243 16 37	RW GAME EDITION HUNT	12/70	Fibre	5	3,00	34	390	25/250
243 16 38	RW GAME EDITION HUNT	12/70	Fibre	3	3,50	34	390	25/250

ENERGY RESERVES WHEN HUNTING SMALL GAME WITH GAME EDITION CARTRIDGES

The energy graph depicted above demonstrates the large energy reserves that GAME EDITION cartridges command when hunting specific game species. The available pattern energy is far higher at every game-specific shooting distance than the minimum energy required to kill that species in a huntsmanlike manner. In general, GAME EDITION cartridges have higher game-specific pattern energy because their shot patterns are tailored to the species in question.

GAME EDITION STEEL HUNT GREEN

The Rottweil GAME EDITION STEEL HUNT GREEN cartridges are versatile hunting loads designed for all types of shots – short, medium, and long range. They provide an enhanced level of game-specific energy, combining optimal power and coverage for guaranteed hunting success. Featuring lead-free, C.I.P.-compatible soft iron shot, these cartridges are ideal for environmentally sensitive areas. The wad is made from 100% biodegradable materials, ensuring a reliable seal even in cold conditions to prevent gas pressure loss. Additionally, the durable, compostable shot cup keeps the steel shot from contacting the barrel.

- Cal. 12: dark green synthetic case with 16 mm brass head
- Steel shot
- Wad and cup made from biodegradable / compostable materials
- Perfect for the demanding, versatile hunter

Only for shotguns carrying steel proof marks

PURNAT

PURNAT WAD made from biodegradable materials

The **PURNAT WAD** is an innovative solution for cartridge loading combining top-tier ballistic performance with sustainability and offering significant advantages over conventional wads.

Technological Advantages of the PURNAT WAD

- 1. Optimal Sealing and Efficiency**
 - Unlike conventional wads, which rely solely on material elasticity or basic fit for sealing, the PURNAT WAD uses intelligent deformation technology.
 - Upon explosion, the wad expands, increasing in diameter and pressing tightly against the cartridge case, ensuring an exceptionally tight seal.
- 2. Outstanding Performance at Low Temperatures**
 - While plastic wads can become brittle in cold conditions and lose their sealing properties, the PURNAT WAD remains fully functional and reliable.
- 3. Ballistic Precision**
 - The Purnat Wad provides an optimal balance between speed and pressure.
 - It minimizes dispersion and enhances shot consistency.
- 4. Environmentally Friendly**
 - Unlike conventional wads, which take a long time to degrade in nature, the PURNAT WAD combines outstanding ballistic performance with sustainability.
 - The wad complies with international biodegradability and compostability standards, meeting EN 13432 (09-2000), ASTM D6400, and ASTM D 6866:2012-01 requirements.

Rottweil®

CLASSIC LINE

ROTTWEIL CLASSIC LINE

Versatile hunting cartridges with standard components

The cartridges of the Rottweil CLASSIC Line cartridges are the perfect choice for hunters with a high ammunition consumption as they offer an excellent price-performance ratio. Their affordability is achieved through the use of cost-effective standard components. Despite this, they deliver flawless performance, ensuring reliable shot patterns and consistently high-quality results. Ideal for intensive hunting, these cartridges provide the perfect balance of performance and economy.

ROTTWEIL SPECIAL

Outstanding value for shooters on a budget

The Rottweil CLASSIC SPECIAL hunting cartridges, made with standard components, are perfect for hunters who require a high volume of ammunition.

Rottweil®

EXTRA LINE

ROTTWEIL EXTRA LINE

Top products for special hunting purposes

The ROTTWEIL EXTRA LINE offers top-tier cartridges for specialized hunting purposes. Its slug cartridges deliver exceptional precision and meet the highest quality standards, making them ideal for wild boar hunting. In regions where buckshot is permitted, the EXTRA LINE provides reliable shells for hunting cloven-hoofed game. With an extra in safety and performance, the EXTRA LINE meets the demands of hunters with specific requirements.

ROTTWEIL EXACT / EXACT MAGNUM

Outstanding precision

The Rottweil EXACT shotgun slug delivers exceptional accuracy, high velocity, and impressive penetration. Its outstanding performance is the result of carefully selected components, making it the perfect choice for both quality-conscious and budget-conscious hunters.

- Cal. 12: Transparent synthetic case with 16 mm (Magnum = 25 mm) brass head
- Cal. 16: Transparent synthetic case with 16 mm brass head
- Cal. 20: Yellow transparent synthetic case with 16 mm brass head
- Lead slug with plastic tail section

ROTTWEIL EXACT GREEN / EXACT GREEN SEMI MAGNUM

More energy is not possible

Made from tin, the high-performance Rottweil EXACT GREEN shotgun slug stands out with its exceptional precision, high velocity, and deep penetration. Carefully selected components ensure outstanding performance, making it the ideal choice for both quality-conscious and budget-minded hunters. Thanks to its lower bullet weight, EXACT GREEN cartridges can be loaded more quickly than heavier lead slugs – without exceeding the safety-relevant maximum pressure of the cartridge.

- Cal. 12: Transparent synthetic case with 16 mm brass head
- Cal. 20: Yellow transparent synthetic case with 16 mm brass head
- Suitable for all shotguns with a chamber length of 70 mm
- For SEMI MAGNUM load: superior testproof mark (CIP S) required
- Lead-free tin slug with a plastic tail section

COMPETITION LINE

ROTTWEIL COMPETITION LINE

Trap and Skeet – established worldwide

No matter whether trap, skeet, sporting clays or game, the sport of shooting should be fun and satisfying. In order to be successful, it is also important to choose the right ammunition. ROTTWEIL offer a wide assortment of sporting cartridges which have been specially designed for the different shooting disciplines and thus contribute to the factors necessary for consistently good performance. The product portfolio includes fast cartridges for experienced shooters, spreader versions for short range and the versatile, Special series for general use. This sport is also easy on your wallet as ROTTWEIL sport cartridges are less expensive than you think!

ROTTWEIL GOLD HV

For years, ROTTWEIL HV has been the gold standard in high-velocity competition shotgun shells, known for their consistent quality. But with it's GOLD HV series, Rottweil takes performance to the next level. Developed in close collaboration with elite shooters from the German Shooting Federation (DSB), every component has been carefully optimized: pellets with enhanced breaking power, low-

recoil powder, wads designed for superior patterning at various ranges, and transparent cases that showcase this advanced technology. The GOLD HV isn't just for Olympic professionals – passionate competition and sporting clays shooters will also benefit from its improved performance.

THE ADVANTAGES OF THE GOLD HV SERIES AT A GLANCE:

Transparent shell casing makes the sophisticated technology visible

Gold-graphited pellets have more target-breaking power (5% antimony)

Wads optimized for dense patterns

'Soft recoil' powder for minimal recoil

Developed in cooperation with the German Shooting Federation (DSB)

ROTTWEIL GOLD HV

Developed in collaboration with elite shooters

Since their introduction, these high-performance HV (High Velocity) cartridges have built a strong reputation among shooters for clay target sports. Despite their impressive speed, they ensure an optimal and consistent shot pattern. The ROTTWEIL GOLD HV series is perfectly suited for all Olympic clay shooting disciplines and hunting-style shooting.

- Caliber 12: Colored synthetic case with 25 mm brass head
- Superior breaking power thanks to hard, gold-graphited lead shot (5% antimony)
- Optimized wads for the best possible patterning
- Fast HV powder load for minimal lead corrections
- Reduced recoil with soft-recoil powder for a smooth and consistent burning
- Reliable Sinoxid primer for dependable ignition

Warning - Fire or projection hazard. - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

ROTTWEIL SELECTION

Engineered for precision, built for competition

The Rottweil SELECTION is a well balanced engineered cartridge designed for skeet and trap shooters, offering an outstanding shot pattern thanks to its precision-crafted synthetic cup or piston wad. Its optimized design ensures superior performance. The 8-point crimp (available in shot sizes 7.5 & 9) minimizes recoil, enhancing shooting comfort. Additionally, the corrosion-resistant SINOXID® primer protects the barrel, making this cartridge perfect for intensive training and competitive use.

- Caliber 12: Dark green synthetic case with 16 mm brass head
- Shot sizes 7.5 & 9: Features an 8-point crimp for reduced recoil
- Shot size 8: Equipped with a piston wad
- Lead shot

Item No.		Caliber	Wadmaterial	Shot Nr.	Shot Size in mm	Load in gramm	V _{2,5} (m/s)	Packaging

ROTTWEIL FIBER

The ideal training cartridge for environmentally conscious sport shooters

The Rottweil FIBER is a well-balanced sporting cartridge designed for both competition and training. It features high quality, perfectly matched components for reliable performance. This cartridge is eco-friendly with a biodegradable cardboard and fibre wad. In addition, the corrosion-free SINOXID® primer helps to protect the barrel.

- Cal. 12: Orange synthetic case with 12mm brass head
- Cal. 16: Green synthetic case with 10 mm brass head
- Cal. 20: Yellow synthetic case with 10 mm brass head
- Fibre wad
- Lead shot

ROTTWEIL SPECIAL STEEL

Lead-free for precision sports shooters

The Rottweil SPECIAL STEEL is a carefully engineered cartridge designed for skeet, sporting clays and trap shooters. It delivers an excellent shot pattern thanks to its high quality synthetic wad and years of optimised development. The corrosion resistant SINOXID® primer protects the barrel, making this cartridge perfect for intensive training. With its lead-free, C.I.P.-compliant steel shot, this cartridge is particularly suited for environmentally sensitive clay target ranges.

- Caliber 12: Bordeaux-colored synthetic case with a 10 mm brass head
- Caliber 16: Green synthetic case with a 10 mm brass head
- Caliber 20: Yellow synthetic case with a 10 mm brass head
- Special cup wad
- Steel shot
- Environmentally friendly

A steel shot proof is not necessary

ROTTWEIL SPECIAL STEEL GREEN

Lead-free & biodegradable – precision with responsibility

The Rottweil SPECIAL STEEL GREEN is a carefully engineered cartridge designed for skeet, sporting clays and trap shooters. It delivers an excellent shot pattern thanks to its high quality synthetic wad and years of optimised development. The corrosion resistant SINOXID® primer protects the barrel, making this cartridge perfect for intensive training. With its lead-free, C.I.P.-compliant steel shot, this cartridge is particularly suited for environmentally sensitive clay target ranges. The wad is made of 100% biodegradable materials and seals even in very cold weather to prevent loss of gas pressure. The durable, compostable shot cup keeps the steel shot out of contact with the barrel.

- Caliber 12: Green synthetic case with a 12 mm brass head
- Steel shot
- Environmentally friendly
